# To-Do-List App

Prepared by :
Nur Syafinatulzanis Binti Ishak

INTRODUCTION

The specialized To-Do-List App is customized for university students to manage assignments, deadlines, and extracurricular activities effectively. It allows students to create, organize, and prioritize academic tasks like assignments and exams with customizable due dates. By centralizing task management and offering prioritization features, the app enhances productivity, encourages efficient time allocation, and reduces procrastination. The intuitive interface and scheduling capabilities enable students to visualize deadlines, create balanced schedules, and avoid last minute rushes.

CONCLUSION

In conclusion, the To-Do-List app for university students combines user centric design with functionality. It features an inspiring Homepage message, a dynamic To-Do-Task screen for organizing and tracking academic tasks, and an efficient "add task" interface for easy task creation and management. Overall, the app enhances academic productivity, clarity, and student well being.

Thank you
